

### About us

- ▶ We FLOWMAX IRRIGATION develops and manufactures high quality surface & sub surface drip irrigation products.
- ▶ Our Company is promoted and professionally managed by Agricultural Engineers with 30years experience in landscape irrigation.
- ▶ Our products are manufactured with high precision advanced machines with professional manufacturing process and follow rigorous testing standards.
- ▶ Our products are developed considering the special needs and challenges of the urban landscape projects like narrow planting areas, multi level landscape varying water requirement, parking, pumping and drainage challenges.
- ▶ Our products range includes Landscape Drip pipes, PVC Pipes, Drip fittings and accessories.

### Features & Benefits

- ▶ **FX-Broline-PCND** is FLOW MAX manufactured brown colored pressure compensating non drain drip pipes specially made for landscape with varying level and high sensitivity landscape areas.
- ▶ **FX-Broline-PCND** is designed for party lawns of star hotels, multi-story balconies, Villa court yards, planting in swimming pool decks, indoor planters of IT parks and Airports.
- ▶ **FX-Broline-PCND** Drip pipes blend with soil color of the planter beds without disturbing the aesthetic of landscape features.
- ▶ Our high performance special additives during extrusion process helps in minimizing root intrusion and add anti microbial characters to suit STP water.
- ▶ **FX-Broline-PCND** pipes embedded with Pressure Compensating emitters that incorporate a silicon membrane which enables the delivery of precise quantity of water over a broad pressure range.
- ▶ **FX-Broline-PCND** drip pipes comes with the Anti-Siphon (AS) system which is a specially designed mechanism that prevents suction of dirt and impurities into the emitter.
- ▶ With the Non-Drain system of **FX-Broline-PCND**, the dripline remains full of water during irrigation intervals, ensuring immediate and uniform irrigation along the dripline and avoid low head drainage.
- ▶ Our high quality **FX-BROFIT** series DELRIN drip fittings assures stronger connectivity at high pressure.

### Aesthetic Irrigation

#### FX-BL-PCND Dripline Models    How to Specify

FX-BL-04-30-200-PCND	FX-BL-04-40-200-PCND	FX-BL-04-50-200-PCND	FX-BL-04-30-500-PCND	FX-BL-04-40-500-PCND	FX-BL-04-50-500-PCND
Model		Pressure Compensating Non Drain		Coil Length (200 Mtrs)	
FX-BL = Flowmax Broline		Emitter Spacing (40 cm)		Flow Rate (4 LPH)
