

### About us

- ▶ We FLOWMAX IRRIGATION develops and manufactures high quality drip irrigation products.
- ▶ Our Company is promoted and professionally managed by Agricultural Engineers with 30 years of experience in landscape irrigation.
- ▶ Our products are manufactured with high precision advanced machines with professional manufacturing process and follow rigorous testing standards.
- ▶ Our products are developed considering the special needs and challenges of the urban landscape projects like narrow planting areas, multi level landscape, varying water requirement, parking, pumping and drainage challenges.
- ▶ Our products range includes landscape Drip pipes, PVC Pipes, Drip fittings and accessories.

### Features & Benefits

- ▶ **FX-Broline-SUB** is FLOW MAX manufactured BROWN COLORED sub surface drip pipes specifically for landscape projects.
- ▶ **FX-Broline-SUB** Drip pipes blend with soil color of the planter beds without disturbing the aesthetic of landscape features.
- ▶ Our proprietary high performance special additives during extrusion process helps in minimizing root intrusion and add anti-microbial characters to suit STP water.
- ▶ Our **FX-Broline-SUB** range drip pipes embedded with high strength, high compact resistance inline drippers which ensures hassle free flow uniformly in varying soil compaction levels and different type of soils.
- ▶ Our full-sized emitter with multiple inlet filters and a wide turbulent labyrinth provide superior flow performance at varying inlet pressure.
- ▶ **FX-Broline-SUB** pipe comes with vibrant blue color lining for easier identification of pipes during landscape maintenance practices like digging and weeding to avoid pipe getting damaged.
- ▶ Our high quality **FX-BROFIT** series DELRIN drip fittings assures stronger connectivity at high pressure.

### Aesthetic Irrigation

#### FX-BL-Sub Dripline Models

#### How to Specify

FX-BL-04-30-200-SUB  
FX-BL-04-40-200-SUB  
FX-BL-04-50-200-SUB  
FX-BL-04-30-500-SUB  
FX-BL-04-40-500-SUB  
FX-BL-04-50-500-SUB

FX-BL-04 - 40 - 200 - SUB  
Sub Surface  
Coil Length (200 Mtrs)  
Emitter Spacing (40 cm)  
Flow Rate (4 LPH)  
Model  
FX-BL = Flowmax Broline
