FlowMAXX® irrigation

FX-Broline
LANDSCAPE DRIP TECHNOLOGY

About us

- We FLOWMAX IRRIGATION develops and manufactures high quality drip irrigation products.
- Our Company is promoted and professionally managed by Agricultural Engineers with 30 years of experience in landscape irrigation.
- Our products are manufactured with high precision advanced machines with professional manufacturing process and follow rigorous testing standards.
- Our products are developed considering the special needs and challenges of the urban landscape projects like narrow planting areas, multi level landscape, varying water requirement, parking, pumping and drainage challenges.
- Our products range includes landscape Drip pipes, PVC Pipes, Drip fittings and accessories.

FX-Broline
LANDSCAPE DRIP TECHNOLOGY

Aesthetic Irrigation

Features & Benefits

- FX-Broline is FLOW MAX manufactured BROWN COLORED drip pipes specifically for landscape projects.
- FX-Broline Drip pipes blend with soil color of the planter beds without disturbing the aesthetic of landscape features.
- Our proprietary high performance special additives during extrusion process helps in minimizing root intrusion and add anti-microbial characters to suit STP water.
- FX-Broline drip pipes comes as plain drip pipes, inline drip pipes to suit varying planting pattern and comes in different coil length to suit project needs.
- Our full-sized emitter with multiple inlet filters and a wide turbulent labyrinth provide superior flow performance at varying inlet pressure.
- Stretch-wrapped coils stay intact and make transportation quick and easy.
- Our high quality FX-BROFIT series DELRIN drip fittings assures stronger connectivity at high pressure.

FX-BL Dripline Models	How to Specify
FX-BL-04-30-200 FX-BL-04-40-200 FX-BL-04-50-200 FX-BL-04-30-500 FX-BL-04-40-500 FX-BL-04-50-500	FX-BL-04 - 40 - 200 Coil Length (200 Mtrs) Emitter Spacing (40 cm) Flow Rate (4 LPH) Model FX-BL = Flowmax Broline
Blank Tubing FX-BL-00-00-200 FX-BL-00-00-500
